

Description:

OSHA requires that all healthcare employers maintain a written Exposure Control Plan. The plan must include a risk analysis, Hepatitis B vaccinations, follow-up procedures, an evaluation of safer sharps and training. The 2-hour update includes the following topics: Health Care Worker Safety and Health, Common Hazards from Bloodborne Pathogens Associated with Medical & Dental Offices, Compliance with OSHA Regulations and Q&A. OSHA requires that your plan be reviewed; that the newest technology be reviewed, and that training is repeated on an annual basis.

CME Disclosures, Accreditation & Designation:

The following planning members of the Chicago Medical Society's CME Committee have disclosed that they do not have any relevant financial relationships with commercial interests:

Ajay K. Chauhan, MD, Chairman, Howard Axe, MD, Vickie L. Becker, MD, Adrienne L. Fregia, MD, Robert W. Pantan, MD, Loren S. Schechter, MD, Kathy M. Tynus, MD, Course Director, and Haydee Nascimento, Director of Education CMS.

The Chicago Medical Society is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Chicago Medical Society designates this live activity for a maximum of **2.0 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Speaker: Sukhvir Kaur, Compliance Assistance Specialist, OSHA-Chicago North Office. Ms. Kaur has disclosed that she does not have any relevant financial relationships with commercial interests.

This activity has no commercial support.

OSHA TRAINING UPDATES: BLOODBORNE PATHOGENS & BEYOND

2015 Schedule of Workshops

**WHAT EVERY HEALTHCARE
PROFESSIONAL NEEDS TO KNOW
BEFORE OSHA IS AT THE DOOR**

www.cmsdocs.org

2015 OSHA TRAINING: Bloodborne Pathogens & Beyond

WHO SHOULD ATTEND?

OSHA requires annual training for all health care workers with potential occupational exposure to bloodborne pathogens. The following groups, with both clinical and non-clinical responsibilities, would benefit if their scope of professional practice involves managing a healthcare office, addressing HR issues, providing staff training, and performing administrative duties: Physicians, Dentists, Nurses, Dental Hygienists, and Physician/Dental Assistants.

Healthcare office managers with non-clinical responsibilities that are in charge of staff training and designated as the primary contacts for any in-house exposure incidents would also benefit from this training. Attend the 2-hour training course, update your exposure control plan, and satisfy most of your annual OSHA regulations today!

Global Desired Learning Outcomes:

All workshops are taught by specialists in exposure control. At the conclusion of this activity, participants should be able to:

- Implement a training program for healthcare employees that may be exposed to bloodborne pathogens.
- Identify appropriate personal protective equipment (PPE).
- Identify the most frequently violated OSHA regulations in medical and dental practices.
- Create a written exposure control plan for healthcare workers assigned as first-aid providers.
- Explain the latest hazard communication requirements.

PLEASE CHECK ONE BELOW:

REGISTRATION 9:30AM; LECTURE 10:00-12:00

- Thursday, September 10 at**
Hilton Garden Inn Oak Brook
(10 Drury Lane., Oakbrook Terrace, IL 60108)
