POLICY

INSTITUTE

Accreditation

CME This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the Southern Illinois University School of Medicine, the Southern Illinois University School of Law, Southern Illinois Healthcare, the Illinois State Bar Association, the Illinois State Medical Society, and the Paul Simon Public Policy Institute. The Southern Illinois University School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The SIU School of Medicine designates this live activity for a maximum of ASMA PRA Category 1 CreditsTM. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

CLE The Southern Illinois University School of Law is accredited by the Minimum Continuing Legal Education Board of the Supreme Court of Illinois to provide continuing legal education for attorneys. The SIU School of Law designates this educational activity for a maximum of 5 hours of General MCLE credit. Attorneys should claim only those hours of credit actually spent in the live activity.

Disclosure Policy

It is the policy of Southern Illinois University School of Medicine, Continuing Medical Education, to ensure balance, independence, objectivity, and scientific rigor in all its educational programs. All faculty participating are expected to disclose any real or apparent conflicts of interest related to the content of this presentation so that such conflicts can be resolved during the planning process.

Intended Audience

This program is designed for health care providers, policymakers, physicians, attorneys, and others who are interested in issues associated with human organ transplantation issues and policy.

Disability-Related Assistance If you require a disability-related accommodation, please call 618/453-8636.

Support

SOUTHERN ILLINOIS UNIVERSITY

SCHOOL OF LAW

SIU

This program is supported, in part, by unrestricted educational grants from Southern Illinois Healthcare, the SIU School of Law Center for Health Law and Policy, First Health Medical Provider Class represented by SL Chapman LLC, and a grant from Sandberg Phoenix & v@montard P.C.

Center for Health Law and Policy

The Health Law Program at the Southern Illinois University School of Law was developed in the early 1980s to advance education and research regarding critical issues in health law, public policy, and medical ethics. After dedicating more than twenty years to teaching, research, and service activities addressing healthcare regulation, patient safety and medical liability, bioethics, public health, mental health, and food and drug law, the SIU School of Law formally established the Center for Health Law and Policy in 2004.

From Critical Shortage to Critical Mass: Addressing the Lack of Donor Organs

Illinois State Medical Society

16th Annual SIH/SIU Health Policy Institute

From Critical Shortage to Critical Mass: Addressing the Lack of Donor Organs

Overview

The science and technology of human organ transplantation have advanced to the point where organ transplantation has become, in many situations, almost commonplace. Kidneys, lungs, and even hearts are now routinely transplanted successfully, improving the health and extending the lives of thousands of patients each year.

And yet, together with this great success, challenges have arisen involving critical medical, legal, and policy issues. Included among these issues are questions regarding the procurement of sufficient quantities of transplantable organs to meet the increasing demand, as well as concerns about the selection of recipients for the limited supply of available organs. These issues are real and perplexing. For example, there are currently more than 99,000 people in the United States waiting for a kidney transplant, with a new person added to the list every 20 minutes. Yet, in 2013, only about 14,000 kidney transplants were performed, while more than 3,300 patients died waiting for a kidney.

Physicians and attorneys may play critical roles in the transplant process. For example, a physician may be treating a patient whose survival depends on receiving a transplant or who is considering being a live donor. An attorney may counsel a family being asked to donate the organs of a loved one or a client in need of a transplant seeking to improve their chances of getting a needed organ. As professionals, both physicians and attorneys may play a role in discussing and formulating crucial transplant policies.

Program May 16, 2014

Location: SIU School of Law, Room 108, Carbondale, IL*

8:30 a.m. Registration

Welcome and Introductions 9 a.m.

Cynthia Fountaine, Dean and Professor of Law, Southern Illinois University School of Law

Bill Sherwood, Vice President and General Counsel, Southern Illinois Healthcare

MORNING MODERATOR: W. Eugene Basanta, J.D., LL.M., Southern Illinois Healthcare Professor of Law, Professor of Medical Humanities, Director, Center for Health Law and Policy, Southern Illinois University School of Law

9:15 a.m. Organ Donation in the US: Unique Challenges and Opportunities

Dean Kappel, B.A., M.S.W., President/CEO of Mid-America Transplant Services (MTS)

- 10:15 a.m. Break
- Organ Allocation Meets the Judiciary: Thoughts on 10:30 a.m. the 2013 Lung Allocation Cases

Steve Harvey, J.D., lead counsel and owner of Steve Harvey Law LL.C.

- **Program Objectives**
- At the conclusion of this program, participants will be able to:
- 1. Describe the current system of organ procurement and allocation;
- 2. Summarize the challenges faced by the present system of organ procurement and allocation:
- 3. Comprehend and critique alternative procurement mechanisms, including the use of economic incentives, as well as ongoing changes in allocation policies and procedures; and
- 4. Participate more effectively in discussions about organ transplant policies.

SIU School of Law

Lunch Presentation: Who Goes First? Equity, Utility and Organ Allocation Policy

(Supported by a grant from Sandberg Phoenix and von Gontard, P.C.)

Stuart C. Sweet, M.D., Ph.D., Medical Director, Pediatric Lung Transplant Program W. McKim Marriott Professor of Pediatrics Washington University

1 p.m. Break

11:30 a.m.

AFTERNOON MODERATOR: Bethany Speilman, M.H.A., Ph.D., J.D., Associate Professor of Medical Humanities and Health Law, SIU School of Medicine and School of Law, and director of medical school's ethics program

Realistic Compensation Systems 1:15 p.m.

T. Randolph Beard, Ph.D., Professor of Economics, Auburn University

Social Media and Organ Donation: 2:15 p.m. The Facebook Effect

Andrew Cameron, M.D., Associate Professor of Surgery and Director of the Liver Transplant program at John Hopkins Hospital

3:15 p.m. Evaluation and Adiournment

Presenters

Dean F. Kappel, M.S.W.

Dean F. Kappel is President/CEO of Mid-America Transplant Services (MTS). He has served in this capacity since 1986. MTS includes a federally designated organ procurement organization, an AATB accredited tissue bank, and an EBAA accredited eye bank

Mr. Kappel is a member of the Board of AlloSource. AlloSource is one of the largest not for profit tissue processing organizations in the US exclusively owned by OPO's. He is also the past treasurer of UNOS, the past president of the Association of Organ Procurement Organizations and former president of the Organ Donation and Transplantation Alliance.

MTS was identified as a high performing organization by HRSA. In 2001, they were the first OPO in the United States to implement inhouse organ and tissue procurement, which today includes on-site cardiac catheterization capabilities and CT scanning. In 2006 and 2010 MTS was a winner of the Missouri Quality Award based upon the Baldrige criteria.

Mr. Kappel has a B.A. in History/Political Science from Blackburn University and an M.S.W. from St. Louis University.

Stephen G. Harvey, J.D.

Stephen G. Harvey is lead counsel and owner of Steve Harvey Law LLC, a litigation and trial law firm in Philadelphia that serves clients locally and nationally. Steve graduated from the University of

Massachusetts at Amherst with a B.A. in 1982. He graduated magna cum laude from Villanova University

School of Law with a J.D. in 1989. He served for one year as a clerk to Judge Myron H. Bright, U.S. Court of Appeals for the Eighth Circuit. He entered the Honors Program of the U.S. Department of Justice in Washington, DC, and served as a trial lawyer in the Federal Programs Branch of the Civil Division from 1990 to 1993. From 1993 to 1995, Steve worked as a litigation associate at Crowell & Moring LLP in Washington, DC. In 1995, Steve joined Pepper Hamilton LLP and in 2000 became a partner in the commercial litigation department, where he worked until December 2013, when he founded Steve Harvey Law.

Steve has worked on a wide range of litigation and trial matters throughout his career, including business disputes, civil rights/ government claims, and regulated industries such banking and healthcare.

Steve has an active pro bono practice for persons and causes in need. He has handled pro bono cases involving political asylum, the rights of children, social security, child support, religious liberty, science education, organ allocation, and free speech.

Steve is a longtime volunteer and immediate past president of the board of directors of the Homeless Advocacy Project in Philadelphia. He serves as a judge pro tem/mediator for the Philadelphia Court of Common Pleas. He is a member of the Legal Advisory Committee of the National Center for Science Education.

Steve is admitted to practice in Pennsylvania, Massachusetts, and the District of Columbia and is a member of the bar of numerous courts, including the U.S. Supreme Court.

Beard is the author of numerous academic articles concerning the economics of health care and the organ shortage. With German economist Rigmar Osterkamp, and the late American economist and kidney transplant patient David Kaserman, Beard authored The Global Organ Shortage: Economic Causes, Human Consequences, Policy Responses (Stanford University Press 2013), the first comprehensive examination of the shortage of transplantable organs worldwide.

Surgery and Director of the Liver Transplant program. Besides his clinical interests in Hepatitis C and liver cancer Dr. Cameron has a basic science laboratory studying stem cells and the liver and is also active in efforts to increase organ donor registration using social media.

*The option is available to attend via teleconference at the SIU School of Medicine in Springfield, IL, or at the ISBA Chicago Regional Office.

Stewart C. Sweet, M.D., Ph.D.

Dr. Sweet received his undergraduate, graduate and medical degrees at the University of Michigan. He was pediatric resident and pediatric pulmonology fellow at Washington University before joining the faculty in 1996. Dr. Sweet became medical director of the Pediatric Lung Transplant Program in 1999. He is board certified in Pediatric Pulmonology by the American Board of Pediatrics. Past honors include the Parker B. Francis Fellowship in Pulmonary Research, Scholar of the Child Health Research Center of Excellence in Developmental Biology, Washington University, Medical Scientist Award for Excellence, University of Michigan. Professional Societies include the International Society for Heart and Lung Transplantation, the American Thoracic Society and the American Academy of Pediatrics. Dr. Sweet's primary research is focused on improved understanding of the important factors determining outcome after lung transplantation in children. He is PI of an NIH-funded multicenter collaborative study of the role B-cell immunity plays in lung transplant outcomes. Dr. Sweet has been chair of the Organ Transplantation and Procurement Network (OPTN) / United Network for Organ Sharing (UNOS) Pediatric Transplantation Committee and Policy Oversight Committee and is currently secretary of the Board of Directors of the OPTN/UNOS and secretary/treasurer of the International Society for Heart and Lung Transplantation. He is also immediate past president of the Missouri Chapter of the American Academy of Pediatrics. In addition to clinical research, Dr. Sweet's interests include ethics and policies related to organ allocation and the use of information technology in medicine.

T. Randolph Beard, Ph.D.

Randy Beard is professor of economics at Auburn University, where he specializes in the economic analysis of public policy and regulation. He is a graduate of Tulane University, and of Vanderbilt University, where he received his Ph.D. in 1988. In addition to his academic appointment, he serves as a Senior Scholar at the Phoenix Center for Advanced Legal and Economic Public Policy Studies in Washington, D.C.

Andrew M. Cameron, M.D.

Andrew M. Cameron was born at the Johns Hopkins Hospital and raised in Baltimore. He attended Harvard College and the Johns Hopkins Medical School before completing his surgical training at the Mass General Hospital and UCLA. He returned to Hopkins in 2006 and now serves as an Associate Professor of
